## BIO

Hello!

My name is DeMarco, I am a Bay Area born Storyboard artist currently living in the Los Angeles Area looking for either Storyboard, Revisionist and Apprenticeship positions. I have a passion for creating action packed works as well as create meaning moments between characters within scenes; my work is greatly influenced by Anime and Anime-like works. While I'm not working my job or working on my portfolio, I can be found catching up and studying animated shows, playing with my dogs or trying out new food/milk tea places with my friends.
